Thank you for your interest in AMERICAN TV

We have one of the largest inventories in the WORLD of hard-to-find Atari replacement parts and accessories.

#A664 **64K UPGRADE KIT FOR THE 600XL.** This kit allows you to upgrade your 16K 600XL to 64K just like its big brother, the 800XL. Makes your 600XL compatible with all 800XL software. Easy to install internal modification includes all components and instructions. The only soldering required is the addition of three wire jumpers to the board. .... \$29.95

### — JOYSTICK CONTROLLERS —

#A700 **REPLACEMENT ATARI JOYSTICK** ..... \$7.00  
#A710 **REPLACEMENT JOYSTICK CABLE** ..... \$.95  
#A715 **TRI-FOOT DOME.** These are the small metal buttons that 'pop' when you use your joystick. One dome is used for each direction, up, down, etc. When your joystick wears, these often depress and do not 'pop' back up. Easy to change with a razor blade and cellophane tape. Package of 10 domes ..... \$.95  
#A720 **REPLACEMENT JOYSTICK PC BOARD.** High quality PC board complete with tri-foot domes. For those who desire a high speed repair. .... \$3.25  
#A740 **REPLACEMENT INNER JOYSTICK.** Injection molded PVC replaces inner portion of broken joysticks ..... \$2.50  
#A933 **CX 40 PADDLE CONTROLLERS.** (Pair). This very hard to find item is required for operating numerous Atari games and programs. Also use these to add two changeable variables to your basic programs. (Using the PADDLE command reading PADDLE1 and PADDLE 2 return values 0 to 255 depending upon the position of the rotary controls.) ..... \$6.50  
#ACX85 **ATARI NUMERIC KEYPAD.** 17 Key pad allows for quick entry of numbers into your programs. Plugs into joystick port number two. Includes a type in program in BASIC that creates an autoload machine language program on your disk drive. Please Note: Original diskette and manual not included. .... \$15.00  
#A6502 **ATARI ROOTS BOOK.** This classic book is a guide to Atari Assembly Language. Learn how to program 6502 assembly language the easy way! Write programs that would be impossible to write in BASIC, and that run 10 to 1000 times faster. Create complex sound effects and use graphic modes that BASIC does not support. Includes enough information about the operation of the EDITOR/ASSEMBLER cartridge to be an ideal companion to our #A8532 EDITOR/ASSEMBLER cartridge. — ATARI ROOTS BOOK ..... \$14.95  
#A8532 **EDITOR/ASSEMBLER COMPUTING LANGUAGE CARTRIDGE.** Includes disassembler and debugger. Cartridge only, does not include manual, however can be used with #A6502 above. .... \$10.00

### SPECIAL!

Purchase Atari Roots #A6502 and the Editor/Assembler cartridge #A8532 (Order #SP6502) for a package price of ..... \$22.95

#A214 **BASIC CARTRIDGE REVISION "A".** This cartridge is the original replacement for the 800/400/1200XL series. As per a recent magazine article, MANY 800XL/600XL owners have been using this cartridge to solve the very serious problems with the built-in REV. B basic on the 800XL and 600XL. Simply insert this cartridge in your XL before beginning basic programming. INCLUDES the excellent tutorial and reference book INSIDE ATARI BASIC. — CARTRIDGE PLUS BOOK ..... \$10.00

### — COMPUTER MODULES / CIRCUIT BOARDS —

#A201 **CX 853 16K RAM MEMORY MODULE.** Manufactured by Atari for their 800 and 400 computers. Heavy gold plated edge connectors for maximum reliability. Use these to expand your 800 computer's memory to 48K or buy one as a backup ..... \$9.50  
#A202 **10K OPERATING SYSTEM MODULE FOR THE 800.** Includes the latest "Rev. B" ROMS which enhance your 800's performance. See instructions under "Rev. B" O.S. chip set later in listing to see which module you have in your computer. Heavy gold plated edge connectors. Without exterior plastic shell. Can be used as is without fear of short, there is plenty of room and insulation in 800 case, or simply replace your existing module by opening the plastic shell. Installation instructions included ..... \$9.50  
#A203 **800 POWER SUPPLY BOARD ASSEMBLY.** Fully assembled and ready to plug in. Includes RF modulator ..... \$9.50  
#A203A **400 POWER SUPPLY BOARD ASSEMBLY.** Fully assembled and ready to plug in. Includes RF modulator ..... \$9.50  
#A203P **RF MODULATOR MODULE FOR 800XL/600XL** ..... \$9.50  
#A204 **800 MAIN BOARD (MOTHER BOARD).** This is the "base" board into which all other boards plug, including game cartridges. Fully assembled and ready to use, including all IC's, Pokey, PIA, etc. ..... \$9.50  
#A204A **400 MAIN BOARD.** Fully assembled and ready to use including all IC's, Pokey, PIA and Rev. B Rom set. ..... \$9.50  
#A205 **800/400 CENTRAL PROCESSING UNIT (CPU).** Includes the new GTIA graphics chip, Antic chip and CPU chip. To see whether you have a CTIA or GTIA graphics chip in your computer, enter and run the following BASIC PROGRAM:  
10 GRAPHICS 10  
20 GOTO 10  
If your screen turns black and stays black, you have the new GTIA chip. If it flashes BLUE, you have the old CTIA. Many programs require the GTIA chip to operate. .... \$9.50

## — COMPUTER MODULES / CIRCUIT BOARDS —

CONTINUED

#A206	<b>800 4-PIECE COMPUTER BOARD SET.</b> Includes Main Board, Power Supply Assembly, CPU Module and 10K Rev. B Operating System Module. All boards are complete with components. Ideal as a "backup parts set" for your 800 . . . . .	<b>\$28.50</b>
#A4000	<b>400 3-PIECE COMPUTER BOARD SET.</b> Includes Main Board, Power Supply Assembly and CPU Module. All boards are complete with components. Ideal as a "backup parts set" for your 400 . . . . .	<b>\$20.00</b>
#A205D	<b>800 KEYBOARD REPAIR.</b> . . . . . (Note: You must remove Keyboard from computer, and you must not have tampered with or previously attempted to repair it yourself.)	<b>\$25.00</b>

## — 810 MODULES / CIRCUIT BOARDS —

#A216AB	<b>REAR/ANALOG UPGRADE.</b> Atari made a major production change in their 810 disk drive with the addition of the Analog Board and the redesign of the Rear Power Board. This addition added improved read/write stability and data recovery and most important, rock steady speed control. (Recommended by Happy for their Enhancement modification.) The old rear Power Board speed control design allowed too large of a speed variation under various conditions, causing error 144 and other problems. Our #A216AB Upgrade Set solves this problem by completely replacing your old Rear Board with a new redesigned Rear Power Board, completely replacing your old Rear Board with a new redesigned Rear Power Board and the addition of an Analog Board. Includes 10 pin jumper and instructions. To see whether you have the old one or new style drive, open the disk drive door and tilt the drive and look up into the case. The Analog Style Drive will have the Analog Board mounted on top of the drive and can be seen through the slot. . . . .	<b>\$32.50</b>
#A216A	<b>ANALOG BOARD for 810 DISK DRIVE.</b> . . . . .	<b>\$10.00</b>
#A216B	<b>REDESIGNED REAR POWER BOARD FOR 810 DISK DRIVE.</b> Will not directly replace an old style Board without the purchase of #A216AB set above. . . . .	<b>\$17.50</b>
#A216C	<b>810 SIDE BOARD.</b> Complete with all parts and IC's including "Rev. C" Fast Format ROM. Does not include Data Separator/1771 FDC Assembly. . . . .	<b>\$29.50</b>
#A216E	<b>810 SIDE BOARD ASSEMBLY.</b> Side Board with installed Data Separator and installed 1771 FDC Chip. . . . .	<b>\$39.50</b>
#A217A	<b>ATARI 810 DISK DRIVE BOARD SET.</b> Includes Side Board, Data Separator with 1771 Chip, Analog Board and redesigned Rear Power Board. . . . .	<b>\$57.50</b>

## — INTEGRATED CIRCUITS —

IC's which are priced at \$4.50 each are offered in lots of 15 or more at \$3.50 each.

#A202A	<b>10K "REV. B" OPERATING SYSTEM 3 CHIP ROM SET FOR THE 800/400.</b> Many "Bugs" were corrected by the "Rev. B" ROMS, most severe of which are printer and disk drive routine errors. Many programs require Rev. B for proper operation. Strongly suggested for use with the new PRINT SHOP (TM) program. Includes installation instructions. To see which revision of ROM you have, type in the following line in BASIC and press return. (Do not use a line number): PRINT PEEK(58383)	
	If the result = 56, then you have the old Rev. A ROM set. If the result = 0, then you already have the new ROM set. . . . .	<b>\$7.50</b> per 3 chip set
#A219G	<b>GTIA CHIP.</b> Atari Part Number C014805. <b>NEW!</b> Upgrade graphics chip for the 800/400. Also used in the 800XL, 130XE, 600XL and 1200XL. See instructions listed under item #A205 to see which chip is installed in your computer. Installation instructions included. . . . .	<b>\$4.50</b>
#A219	<b>POKEY CHIP.</b> Part Number C012294. A Custom LSI 40 pin chip used in all models of Atari computer (Except ST) . . . . .	<b>\$4.50</b>
#A219A	<b>PIA (Peripheral Interface Adaptor).</b> Part Number C014795. Chip for all model Atari computers. (Except ST) . . . . .	<b>\$4.50</b>
#A219B	<b>ANTIC CHIP.</b> Part Number C012296. Used on 800/400 and 1200XL computers . . . . .	<b>\$4.50</b>
#A219N	<b>ANTIC CHIP.</b> Part Number C021697. Exact replacement for use in 800XL/600XL and 130XE units. . . . .	<b>\$10.00</b>
#A219NI	<b>FAST CHIP by Newell Industries.</b> Replacement floating point ROM package for the 800 or 400. Up to three and 1/2 times the speed of the original. You can see the difference. Includes installation instructions. . . . .	<b>\$15.50</b>
#A219DL	<b>DELAY IC FOR USE IN XL MACHINES.</b> Atari Part Number C060472 . . . . .	<b>\$4.50</b>
#A219D	<b>CUSTOM CPU CHIP.</b> Part Number C014806. Used in 800/400 (Late production only), 800XL, 130XE, 600XL and 1200XL . . . . .	<b>\$4.50</b>
#A21K	<b>CPU IC</b> for older 800/400 units. Part Number C0104377/6502B . . . . .	<b>\$4.50</b>
A219E	<b>810, 1050, 850, 820 CPU CHIP.</b> Part Number C010745 . . . . .	<b>\$4.50</b>
#A219F	<b>810, 1050, 850, 820 PIA CHIP.</b> Part Number C010750 . . . . .	<b>\$4.50</b>
#A219GM	<b>IC Used in 2600 VIDEO GAMES.</b> Part Number C010444 . . . . .	<b>\$4.50</b>
#A217C	<b>1771 FLOPPY DISK CONTROLLER CHIP.</b> . . . . .	<b>\$10.00</b>
#A217Q	<b>2793 FLOPPY DISK CONTROLLER CHIP</b> for 1050 Disk Drive . . . . .	<b>\$19.50</b>
#A1050R	<b>ROM IC</b> for 1050 Disk Drive . . . . .	<b>\$13.50</b>
#1050S	<b>5713 STEPPER DRIVER IC</b> for 1050 Disk Drive . . . . .	<b>\$5.25</b>
#A219Z	We can supply you with ANY 14 or 16 Pin IC in the 800/400 or 810 for . . . . . Please specify all the numbers on the IC plus the socket number, board description and type of equipment.	<b>\$2.50</b>

## — TRANSFORMERS AND SUPPLIES —

#A270A	<b>PROBURNER DELUXE EPROM BURNER IN A CARTRIDGE.</b> This is the easiest to use programmer that we have seen. The entire unit is contained in a cartridge. No external software, cables or plugs required. Although the cartridge supports the use of a disk drive for code storage, a disk drive or tape drive is not required for its operation. Works with all 8 bit Atari computers except the 1200XL . . . . .	\$145.00
#A210	<b>REPLACEMENT POWER TRANSFORMER.</b> Replacement for powering 800/400/1200XL computer, 810 and 1050 drives, 850 interface, 1010 recorders and the 1020 plotter. — Atari Part Number C017945 9VAC @ 31VA . . . . .	\$14.50

## **— CARTRIDGE MAKING SUPPLIES —**

#A220G	<b>16K EPROM BOARD WITH CASE.</b> Uses two 2764 8K EPROMS. High quality board with gold contacts.	.....	\$5.95
		In lots of 10 or more .....	\$4.95
(Note: You can use this cartridge to make 8K boards by using only 1 socket.)			
#A220H	<b>16K EPROM BOARD WITH CASE.</b> Use one 27128 16K EPROM. High quality board with gold contacts.	.....	\$6.50
		In lots of 10 or more .....	\$5.50
#A270H	<b>2764 EPROM</b> .....	.....	\$3.95
#A220N	<b>SIRIUS 8K PROM BOARD.</b> Can be rewired to construct your own 8K EPROM boards for use with two 2732 or 2532 EPROMS. Instructions included. (Requires one 74LS00 IC for conversion, not included. .... 8K PROM Boards .....	.....	2 for \$1.00
#A220E	<b>4K EPROM BOARD BY ATARI.</b> Requires two 2716 EPROMS. Includes case.	.....	\$5.50
#A220K	<b>ATARI ORIGINAL CARTRIDGE CASES.</b>	.....	\$1.50
	(Note: These do not fit #A220N above.) Cartridge case.		

## **— CABLES, PLUGS AND CONNECTORS —**

#A203B	<b>13 PIN MALE SERIAL I/O CONNECTOR. PC MOUNT.</b> (Mates with I/O cable) . . . . .	\$4.50
#A203D	<b>13 PIN FEMALE I/O CABLE CONNECTOR.</b> Plug case and 13 pins for constructing your own I/O cable or device. . . . .	\$4.50
#A216D	<b>SERIAL I/O CABLE.</b> Used to connect computer to peripheral devices such as 810 drive, printer, etc. — 6 Ft. . . . .	\$8.75
#A222	<b>CARTRIDGE SOCKET</b> on 400/800, 800XL, 600XL, 130XE . . . . .	\$4.50
#A659	<b>520/1040ST MONITOR CONNECTOR.</b> Useful in making your own cables for connecting your ST to an RGB monitor . . . . .	\$5.50
#A520D	<b>520ST/1040ST DISK DRIVE CABLE.</b> 6 Feet. Essential for hooking up your own 3-1/2" or 5-1/4" disk drive . . . . .	\$14.00
#A339	<b>850 INTERFACE TO MODEM CABLE.</b> For standard modems with 25 pin female connectors only. . . . .	\$13.50
#A340	<b>850 OR PR CONNECTION TO CENTRONIC PRINTER CABLE.</b> . . . . .	\$12.50
#A331	<b>850 TO 825 PRINTER CABLE</b> . . . . .	\$7.50
#A710	<b>DUST COVERS.</b> We have high quality dust covers for the following machines: 810, 800, 400, 130XE, 2600, 800XL . . . . . (PLEASE SPECIFY YOUR MACHINE WHEN ORDERING.)	\$7.00
#A932	<b>DISKETTES.</b> Box of 10 with hub rings and sleeves. High quality, rated Double Density, Double Sided . . . . . (per box)	\$9.50

#### — HAPPY ENHANCEMENTS —

#H100	<b>810 VERSION 7 HAPPY ENHANCEMENT.</b> Convert your existing 810 disk drive to a Happy Drive. Extremely good at making a backup copy (for your own use only!) of your copy protected programs. Package includes easy to install circuit board and Software. . . . .	\$89.95
#H200	<b>1050 HAPPY ENHANCEMENT.</b> Includes everything you need to make your 1050 a "Happy Drive" . . . . .	\$139.50
#H300	<b>1050 CONTROLLER.</b> Adds the ability to run your 1050 in "slow mode" . . . . .	\$49.50
#H400	<b>810 VERSION 7 UPDATE.</b> For owners of older "Happy Modifications" and compatibles. Includes ROM change and new disk software . . . . .	\$47.50

## — INTERFACES —

#A850A	<b>ATARI 850 SERIAL/PARALLEL INTERFACE BOARD (bare with crystal).</b> Build your own 850 interface using this board. This unit (when completed) will allow you to use any standard parallel printer or any standard RS232 modem with your Atari. Solves the difficult problem of interfacing a 1200 BAUD modem to your computer. We supply a parts list and a description of a minor circuit change that will allow you to replace the custom ROM with your own code on 2532 EPROM. All parts on the 850 are industry standard except the custom ROM and a 4433.618 KC crystal. This crystal is included with the board. <b>Caution:</b> We do not supply the 850 custom ROM chip or code listing. BARE 850 BOARD WITH PARTS LISTING AND CRYSTAL . . . . .	\$10.00
#A860	<b>PR CONNECTION.</b> Contains two RS-232 ports for use with modem, etc., and a parallel printer port. Includes modem software . . . . .	\$65.00
#A870	<b>PRINTER INTERFACE.</b> This low cost parallel printer interface is built into the cable. Simply hook between your Atari and your printer . . . . .	\$39.95

## — SYSTEM TEST SOFTWARE —

#A800	<b>SALT TEST CARTRIDGE FOR 800/400.</b> Tests memory, ROM, keyboard and other vital circuits. Requires peripheral port set (available late 1987) for testing peripheral and joystick ports .....	\$22.50
#A810	<b>810 AND 1050 DIAGNOSTIC CARTRIDGE.</b> Allows you to command the read/write head to a specific track. Invaluable for doing difficult track to track adjustments. Also contains an extensive read/write test section .....	\$22.50
#A900	<b>CPS DIAGNOSTIC DISK I/O.</b> Contains exercise and test routines for the following units: 810 and 1050 disk drive, 410 and 1010 data recorders, 825 and 1025 printer/plotter and the 835 modem .....	\$22.50

## — PUBLICATIONS —

#B310	<b>SAMS COMPUTERFACTS SERVICE MANUAL FOR THE ATARI 800.</b> Contains schematics, parts lists, labelled photographs showing the location of test points, and more! A special section gives oscilloscope readings allowing you to narrow down the malfunction to a specific chip or transistor. Another section gives you preliminary service checks you can perform without even opening the case! .....	\$19.50
#B330	<b>SAMS COMPUTERFACTS SERVICE MANUAL FOR THE 800XL.</b> Same as described above except for the 800XL computer .....	\$19.50
#B1050	<b>SAMS COMPUTERFACTS SERVICE MANUAL FOR THE 1050 DISK DRIVE</b> .....	\$19.50
#B370	<b>SAMS COMPUTERFACTS SERVICE MANUAL FOR THE 130XE COMPUTER</b> .....	\$19.50
#B380	<b>SAMS COMPUTERFACTS FOR THE 520ST COMPUTER</b> .....	\$37.50
#B400	<b>SAMS COMPUTERFACTS FOR THE 400 COMPUTER</b> .....	\$19.50
#B510	<b>INSIDE ATARI BASIC</b> — This comprehensive book covers the unique basic used in the Atari computers. Published by Atari .....	\$5.00
#B535	<b>ATARI BASIC REFERENCE MANUAL.</b> This is the original! .....	\$5.00
#B945	<b>BOOK: ADVANCED PROGRAMMING TECHNIQUES FOR YOUR ATARI, INCLUDING GRAPHICS AND VOICE PROGRAMS</b> , by Linda A. Schreiber. 224 pages, 33 illustrations. As per a recent magazine article, this book is considered by some to be easier to understand than De Re Atari. This is one of the best advanced programming books we have seen. Here are just a few of the chapter titles: Principles of Animation, Display List Interrupts, Scrolling, Page Flipping .....	\$13.95
#B2776	<b>1001 THINGS TO DO WITH YOUR ATARI ST.</b> 228 pages of enough practical ideas to keep you busy for 011001100 binary years! .....	\$12.50
#B2761	<b>ATARI ST GRAPHICS AND SOUND PROGRAMMING.</b> Features more than 50 commercial-quality programs. Makes it simple to master basic graphics and sound concepts. 239 pages .....	\$13.95
#B837	<b>HACKERBOOK — TIPS + TRICKS.</b> — Learn how to make your own cartridges and more .....	\$5.00

## — SERVICE RATE INFORMATION —

**AMERICAN TV** services the following units at the listed rates that includes all necessary parts and labor.

800 MICROCOMPUTER .....	\$39.50	810 DISK DRIVE .....	\$69.50
1050 DISK DRIVE .....	\$85.00	850 INTERFACE .....	\$39.50
600 XL COMPUTER .....	\$49.50	800XL COMPUTER .....	\$49.50
1200XL COMPUTER .....	\$49.50	800 KEYBOARD REPAIR .....	\$25.00

Include \$7.00 return shipping and insurance. For 800 keyboard repair only, remove keyboard from unit and include \$4.00 return shipping and insurance. Foreign shipping extra. Above units repaired or exchanged with rebuildable exchange. Ship units to our mailing address by insured U.S. Mail or UPS. The usual turn-around time is 7 working days. Phone us at 415-352-3787 if you have any questions. Licensed repair facility. California State Registration #13601. All repairs guaranteed 60 days on parts and labor.

## — IMPORTANT ORDERING INFORMATION —

If ordering by phone, you can now call TOLL FREE from outside the State of California by dialing 1-800-551-9995. For technical information or ordering within Calif., phone 415-352-3787. Operators available 24 hours a day, 7 days a week, never a recording. To reach regular store personnel, the best hours to phone are between 7:30 AM - 8:30 PM Pacific. (10:30 AM - 11:30 PM Eastern).

If ordering by mail, please place all orders by catalog number on the form supplied or equivalent. All orders shipped UPS unless otherwise specified. Two day blue label air service and red label next day delivery available upon request. (Extra charge). All parts new and complete including all IC's, transistors, resistors, etc., unless otherwise stated. All parts assemblies and software guaranteed for 30 days.

We accept VISA and MASTERCARD, money orders, certified checks, personal checks or COD. Please no personal checks on COD's. If paying by personal check, please allow sufficient time for your check to clear our bank. Add \$2.00 for COD. Free shipping on domestic orders over \$150.00. Under \$150.00 include \$4.00 for shipping/handling. No COD's to Canada or overseas. Foreign orders MUST be prepaid in U.S. funds drawn on a U.S. bank or by charge card. Minimum MASTERCARD/VISA order \$20.00.

Make checks payable to **AMERICAN TV**. IMPORTANT: Address all orders and repairs to our mailing address of: 15338 INVERNESS ST., SAN LEANDRO, CALIF. 94579. Our business address is 1988 Washington Ave., San Leandro 94577.

Prices subject to change without notice. Sales limited to stock on hand. We reserve the right to limit quantities.

AMERICAN TV has been in business for 14 years at the same address in San Leandro. Our only business is Atari parts and service.
